<sup>(1)</sup>Always use seat belts. Dodge Sprinter Cargo and Chassis Cab vans are equipped only with front seats and should not be used to carry children 12 and under. In Dodge Sprinter Passenger Van children 12 and under should be in a backseat correctly using an infant or child restraint system, or the seat belt positioned correctly for the child's age and size. <sup>(2)</sup>Always check entire surroundings before backing up. <sup>(3)</sup>No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle, and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt.
